

## **Title: "Tibet Explained: Unmasking China's False Claim"**

Genre: Law / International / Asia / Policy

"Tibet Explained" is a thought-provoking and timely book authored by Michael van Walt van Praag and Miek Boltjes, acclaimed specialists in intrastate conflict and international law. Building on the success of their award-winning book, "Sacred Mandates; Asian International Relations since Chinghis Khan," this new work serves as a compelling wakeup call for governments to reassess their Tibet and China policies.

The book is incisive and convincing, shedding light on China's deceptive claim to Tibet and the historical narrative constructed by Beijing to legitimise it. It goes beyond the Sino-Tibetan conflict, making it essential reading for policymakers worldwide. In "Tibet Explained," the authors argue that China's actions in Tibet violate international law, and it is the responsibility of the international community to rectify this situation.

Key endorsements from prominent figures underscore the book's significance. Martin Bursík, former Deputy Prime Minister and Minister of the Environment of the Czech Republic, commends it as the first comprehensive expose of China's falsification of Tibetan history, emphasising its importance for policymakers. Congresswoman Nancy Pelosi, former Speaker of the U.S. House of Representatives, underscores the moral duty to stand with Tibet and hold China accountable for its actions.

The book also garnered praise from international figures like Benedict Rogers, co-founder of Hong Kong Watch, and Senator Giulio Terzi Di Sant'Agata, former Minister of Foreign Affairs of Italy. They highlight the well-documented evidence provided by the authors and emphasise the need for peaceful solutions based on international law and human rights principles.

Gianni Vernetti, former Senator and Undersecretary of Foreign Affairs of Italy, underscores the importance of "Tibet Explained" in exposing China's attempt to rewrite history and negate Tibet's identity. The book equips the international community with legal and political tools to address the Sino-Tibetan conflict.

In "Tibet Explained," Michael van Walt van Praag and Miek Boltjes draw on their extensive expertise in diplomacy and mediation to present a compelling case for a reevaluation of Tibet and China policies. Their previous groundbreaking works in international law and intrastate conflict resolution attest to their credibility as authors. "Tibet Explained" is an indispensable resource for anyone seeking to understand the historical, legal, and political complexities surrounding Tibet and China.
